

RF1903 | SIDEWAYS SOFA

RIKKE FROST

CARL HANSEN & SØN

DESCRIPTION

The RF1903 Sideways Sofa combines classic materials – wood, paper cord, and high-quality upholstery textile – with a modern asymmetric shape. The distinctive design eschews the traditional forward-facing sofa in favor of a sideways position that encourages more natural conversation. The result is a sofa you want to sit in for a long time.

PRODUCTION PROCESS

All parts are processed on machines. Back pieces are steam-bent. The base is made of plywood with a solid wood front edge. All wooden parts are hand sanded twice and the back is weaved by hand. The back and seat are upholstered by hand on elements of plywood and MDF.

DESIGNER

Danish designer Rikke Frost (b. 1973) has always been curious about the combination of different craft traditions and types of material, a fact clearly reflected in her design portfolio where traditional and contemporary design is expressed in sofas, tables, chairs and lamps with an organic idiom. Rikke Frost has been nominated for, and won, several prestigious awards.

MATERIALS

- Frame: Solid oak with soap, lacquer, oil, white oil, or black paint. Note that oak has a clearly visible wood structure when painted. Solid Walnut with lacquer or oil
- Seat and back: Natural papercord (back only). Foam on plywood and MDF. Upholstery available in all fabric groups
