- Can be supplemented with castors that amplify its functionality
- Made of post-consumer recycled ABS
- Available in two different heights
- Suitable for a wide variety of private and public environments

# FACET CABINET DESIGN BY STEFAN SCHOLTEN

Facet Cabinet is a versatile, multifunctional storage solution that is easy to move around. Its name taken from the faceted surfaces, which add a sophisticated slant to the minimalist design, Facet combines visual appeal with high functionality. Featuring revolving integrated doors and supplementary wheels, Facet is designed to adapt its task to its surroundings. Facet's flexibility enables it to be used in a wide variety of rooms and contexts – from a bedside cabinet in the bedroom and side table in the sitting room to a stationery organiser in the home office.

Dutch designer Stefan Scholte is known for his reductionist style and unique use of colour, and uses the 'atelier' method of working, combining functionality with an expressive, original design on diverse projects worldwide.

## SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
