

DESIGN BY ERWAN BOUROULLEC

HAY

TRAVERSE COLLECTION

HIGHLIGHTS

- Robust and elegant collection of outdoor chairs, tables, stools, and benches
- Features a diecast aluminium frame with slats in heat-treated ash wood
- Resilient furniture that blends naturally into the nature and becomes more beautiful over time
- Flat-packed construction to be assembled by the customer
- Suitable for a wide variety of outdoor environments

TRAVERSE COLLECTION DESIGN BY ERWAN BOUROULLEC

Designed for HAY by Erwan Bouroullec, Traverse is a range of outdoor furniture designed to naturally blend in wherever it is placed. Comprising a die-cast aluminium frame with slats in heat-treated ash, the furniture combines a robust construction with an inviting expression that naturally patinates to become more beautiful over time. With its well-balanced aesthetics and ergonomic design, Traverse's collection of chairs, tables, benches, and a stool is easy to integrate into a wide range of private and public spaces.

Erwan Bouroullec is a French designer and artist based in Paris. He attended the École Nationale Supérieure des Arts in Cergy before starting Bouroullec Studio with his brother. Together the design duo has transformed the design industry, offering new perspectives of materiality and purpose with an international portfolio that includes furniture, architecture, and artworks. Erwan uses a technically minded approach to create flexible, functional designs in his collaborations with other artists and creatives on multifaceted projects. For HAY, he has designed the Traverse Collection.

MATERIALS

FRAME

Shot-blasted diecast aluminium with outdoor lacquer. Diecast aluminium parts are made of min. 60% recycled aluminium. Extruded aluminium crossbars used on Stool, Tables and Bench 114 are made of conventional aluminium

SLATS

Heat treated solid ash with outdoor wood wax oil

GLIDER

Black 100% recycled Nylon

COLOUR & FINISH

Please note that the colours are indicative

Shot-blasted
aluminium

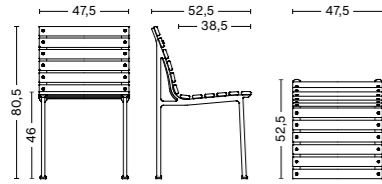

Heat treated
ash*

*UV radiation will gradually change the surface colour of the wood, which will fade to form a silvery-grey patina. Depending on the intensity of UV radiation it may take from a few months to a few years.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
